

CONTROL PANELS

Made in Italy

ELECTRONIC SYSTEM PROTECTION

E.S.P. is a control board for the protection and control of electro-pumps.

The main feature of this device is the protection of the motor pump from dry running by checking the motor cosphi.

Cosphi and current motor parameters can be manually set by the operator (**MANUAL FUNCTION**), by inserting a minimum Cosphi threshold value and a maximum current value. If these values are exceeded, the device will activate to protect the motor pump.

In addition to manual operation, the *E.S.P.* has an automatic mode (**AUTOMATIC FUNCTION**) with which it can automatically set necessary cosphi and current value to protect the motor pump.

All settings and displays are done through a keyboard and a display.

E.S.P. is available as three-phase and single-phase version: the latter comes with the possibility to insert a capacitor (**not included**).

E.S.P. is also supplied with a digital auxiliary input device to start or stop the pump. A float, a pressure switch, ..., may be connected to this input.

MAIN FEATURES AND PROTECTIONS

- Protection against dry running and automatic reset of protection after 10-20-40-80-(120x10 times) minutes
- Electrical protection against motor overload
- Protection against no-phase (three-phase version)
- Protection against over voltage
- Output with cable glands
- IP 55 protection class

SPECIFICATIONS *E.S.P.* - 50/60Hz

Type	Approximate Power		Phase	Voltage [V]	Max. Current [A]	Weight [Kg]	Dimension [mm]
	[Hp]	[kW]					
Sline20	0,5 - 3	0,37 - 2,2	1	230	20	1,8	240 x 190 x 90
Tline10	0,5 - 4	0,37 - 3	3	400	10	1,8	240 x 190 x 90
Tline20	5,5 - 10	4 - 7,5	3	400	20	1,8	240 x 190 x 90
Tline30	12,5 - 15	9,2 - 11	3	400	30	2,4	240 x 190 x 90

CONTROL BOX

C-BOX series of control panels are designed to protect single-phase electropumps.

Endowed with thermal-amperometric protection and start capacitor, in proportion with motor size.

MAIN FEATURES AND PROTECTIONS

- Box made of thermoplastic insulating material
- On / Off switch
- Externally resettable thermal protection
- Output with cable glands
- IP 54 protection class
- Upon request, it's possible to supply them with plug for power outlet

SPECIFICATIONS C-BOX - 50Hz

CONTROL BOX

CU-BOX series of control panels are designed for the starter of 4" single-phase water cooled submersible motors canned type of 4WMU 60 Hz series.

MAIN FEATURES

- Painted metal container
- Start capacitor for single-phase motors 3-WIRE CSIR (powers from 1/2 to 1 Hp)
- Start + Run capacitor for single-phase motors CSCR (powers from 1.5 to 5 Hp)
- Volumetric Relay
- External access to thermal protection for single-phase motors 3-WIRE CSCR (powers from 1.5 to 5 Hp)
- Suitable for in and outdoor use

SPECIFICATIONS CU-BOX - 60Hz
